

Seamless Belts for the Battery Industry

Truly endless belts used for battery pasting machines

- Endless pasting belts used for automatic pasting of battery grids on pasting machines (Hadi, Sovema, Wirtz, Mac, Winkel or any type of pasting machine).
- Truly Endless belt with no seams or splices

Textile structure:

- Woven fabric at the external pasting surface and non-woven synthetic mat at the internal surface

Material:

- High quality absorbent cotton (external surface) and synthetic fibres (internal surface)

Characteristics

- Specific tensile strength 250 daN/cm lengthwise and 170 daN/cm crosswise
- Belt tensile strength, lengthwise: 8250 daN
- Average elongation at break: 12 %

- **Seamless belts allow for uniform water absorption throughout the belt**
- **Belts are heat set, resulting in straight running and elimination of tracking issues**
- **Surface treatment to increase abrasion and pressure resistances**
